31st July 2023 | 05.00 p.m IST 2022

### Market Overview -

**Choppiness persists throughout the day, but Nifty50 managed to close in Green.**

The Indian market barometer Nifty50 managed to close in green despite huge Choppiness throughout the day. Technically, the overall trend for major indices such as Nifty50 and Nifty Bank are still bullish, and it is evident that seen they both respected its 20 DMA on the closing basis. In today's trading session, low beta stocks such as NTPC & ONGC were registered as top gainers of the day. Whereas Apollo Hospital & Britannia were the top losers. The advance decline ratio was in the favour of buyers, which suggests that bulls are still aggressive over bears. We expect more volatility in coming sessions with a bullish perspective. Maruti and L&T may remain in focus for Tuesday trading session.

Our Take- Nifty may remain the range between the 19500-19900 range .

Nifty Bank support may place around 45500 levels and resistance around 46000 levels.
